Future

CYTRION™
In Sync With The Future

About **Cytrion**

We at Cytrion transform enigmas into solutions for consumers through software. We provide solutions for a dynamic environment where business and technology strategies converge. We aim at serving our corporate clients with the most cost effective, robust and revenue generating services. Cytrion has a global client footprint with customers in India, USA, UK and Ireland.
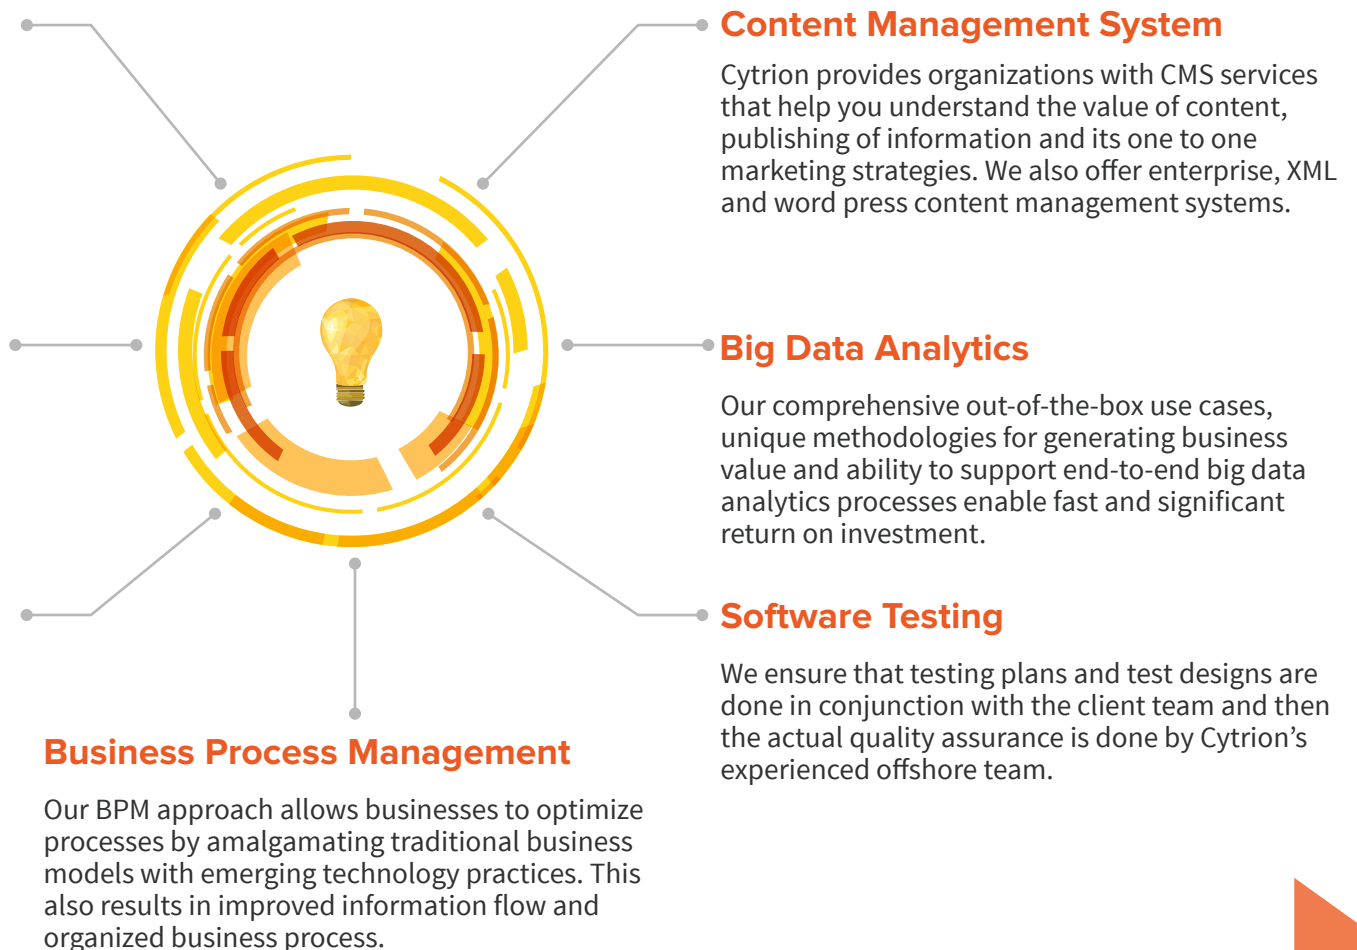

Services **Portfolio**

E-Commerce

We deliver complete, integrated solutions, ranging from e-commerce strategy to on-going business support. Using our wide palette of technology capabilities, we generate creative and targeted e-commerce solutions for your business problems and implement them with speed and accuracy using our aligned delivery process.

Mobile Application Development

We develop and deliver mobile applications across platforms. Our unique expertise at Cytrion makes it possible by offering continuous support and solutions in developing the best Mobile Application for your business.

Software Consulting

Our robust software consulting offers top notch Enterprise Solutions, Software & Web Development and Mobile Application Development services.

Content Management System

Cytrion provides organizations with CMS services that help you understand the value of content, publishing of information and its one to one marketing strategies. We also offer enterprise, XML and word press content management systems.

Big Data Analytics

Our comprehensive out-of-the-box use cases, unique methodologies for generating business value and ability to support end-to-end big data analytics processes enable fast and significant return on investment.

Software Testing

We ensure that testing plans and test designs are done in conjunction with the client team and then the actual quality assurance is done by Cytrion's experienced offshore team.

Business Process Management

Our BPM approach allows businesses to optimize processes by amalgamating traditional business models with emerging technology practices. This also results in improved information flow and organized business process.

Solutions **Offerings**

Start-up's Garage
We provide Start-up's and early-stage firms with a complete road map and help you with consulting, programming and designing.

Rapid Go-To-Market
We build a powerful go-to-market system that acts as the essential path to success, a system with diverse frameworks to keep your business in sync with its market.

Biz Accelerator
We provide businesses with a new approach, the one that will improve efficiencies to outpace competition.

The Engagement **Models**

You can choose from the engagement models given below, which would be fine tuned in accordance with the customer requirements.

Fixed Bid
Very well suited for customers with well-defined project requirements and schedules.

Time & Materials
Suitable when projects are quite complex & are prone to specification and design changes during the course of the project.

Collaborative
Suitable when your project requires us to integrate with on-site engineering activities and look after your project on a continuous basis.
